

MPDP What is covered

2024 Blue Cross and Blue Shield Service Benefit Plan - Standard and Basic Option

Section 5. Benefits

Section 5(f). Prescription Drug Benefits

- **What is covered.**

Under Standard Option and Basic Option

Both formularies include lists of preferred drugs that are safe, effective and appropriate for our members, and are available at lower costs than non-preferred drugs. If you purchase a drug that is not on our preferred drug list, your cost will be higher. Your cooperation with our cost-savings efforts helps keep your premium affordable.

Note: Member cost-share for prescription drugs is determined by the tier to which a drug has been assigned. To determine the tier assignments for formulary drugs, we work with the CVS Caremark National Pharmacy and Therapeutics Committee, a group of physicians and pharmacists who are not employees or agents of, nor have any financial interest in the Blue Cross and Blue Shield Service Benefit Plan. The committee meets quarterly to review new and existing drugs to assist us in our assessment.

Our payment levels are generally categorized as:

Tier 1: Includes generic drugs

Tier 2: Includes preferred brand-name drugs

Tier 3: Includes non-preferred brand-name drugs

Tier 4: Includes preferred specialty drugs

You can view both the Standard Option and Basic Option formularies, which include the preferred drug list for each, on our website at www.fepblue.org or call 888-338-7737, TTY: 711, for assistance. Changes to the formulary are not considered benefit changes.
