Benefit Description

Hospice Care (cont.)

Prior approval from the Local Plan is required for all hospice services. Our prior approval decision will be based on the medical necessity of the hospice treatment plan and the clinical information provided to us by the primary care provider (or specialist) and the hospice provider. We may also request information from other providers who have treated the member. All hospice services must be billed by the approved hospice agency. **You are responsible for making sure the hospice care provider has received prior approval from the Local Plan** (see Section 3 for instructions). Please check with your Local Plan, and/or visit www.fepblue.org/provider to use our National Doctor & Hospital Finder, for listings of Preferred hospice providers.

Note: If Medicare Part A is the primary payor for the member's hospice care, prior approval is not required. However, our benefits will be limited to those services described here.

Members with a terminal medical condition (or those acting on behalf of the member) are encouraged to contact the Case Management Department at their Local Plan for information about hospice services and Preferred hospice providers.
