

MPDP Catastrophic Maximums

2024 Blue Cross and Blue Shield Service Benefit Plan - Standard and Basic Option

Section 5. Benefits

Section 5(f). Prescription Drug Benefits

Catastrophic Maximums

Each individual enrolled in the FEP Medicare Prescription Drug Program has a separate and lower out-of-pocket catastrophic protection maximum for the drugs purchased while covered under this Program.

Under Standard Option, this separate catastrophic maximum is \$2,000

Under Basic Option, this separate catastrophic maximum is \$3,250.

This amount accumulates toward the out-of-pocket catastrophic protection maximums described in Section 4 for combined medical and drug expenses for those not enrolled under the FEP Medicare Prescription Drug Program.
